

AWAIS AHMAD

AI/ML Developer | Applied Machine Learning Engineer | NLP & Recommender Systems
Lahore, Pakistan | +92 321 7598228 | aawais5680@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science graduate (BSCS, University of Central Punjab, AI/ML major) shipping applied ML systems end-to-end — retrieval-augmented assistants, recommendation engines, NLP classifiers, and on-device inference — as deployed Streamlit apps. Also builds native Android and IoT-integrated mobile applications; co-authored two IEEE-formatted papers on blockchain security.

SKILLS

Machine Learning: scikit-learn, TensorFlow / TFLite, Recommender Systems (NMF, Collaborative Filtering), Prompt Engineering
NLP & Retrieval: TF-IDF, Embeddings, Sentence-Transformers, ChromaDB / RAG, K-Means Clustering
Tools & Platforms: Streamlit, IoT Integration, Android (Java, XML), pandas, NumPy, Git/GitHub
Programming Languages: Python, Java
Soft Skills: Problem-Solving, Adaptability, Effective Communication, Time Management, Team Collaboration
Languages: English (Professional), Urdu (Native)

WORK EXPERIENCE

Machine Learning Intern | Internee.pk, Remote Jun 2025 – Jul 2025

- Worked across the full ML pipeline — data preparation, model training, and deployment of web-based AI applications.
- Built an AI-powered Interview Question Generator and a Learning Path Recommender (NMF collaborative filtering with cold-start fallbacks), both shipped via Streamlit.
- Independently extended the internship's scope with four additional ML tools: skill-gap matching, feedback sentiment classification, intern performance prediction ($R^2 \approx 0.94$), and a RAG-based FAQ assistant.

KEY PROJECTS

Digital Farmer Avatar — Final Year Project | Independent / Technical Lead 2026

- IoT-integrated mobile app with real-time soil/temperature/humidity monitoring, an on-device TensorFlow Lite model for offline plant disease detection, and a context-aware agricultural recommendation engine.

Skill Gap Analyzer & Internship Support FAQ Bot | Independent 2025

- TF-IDF + K-Means candidate-role matching and skill-gap detection, plus a RAG assistant (ChromaDB, Sentence-Transformers) returning source-referenced FAQ answers.

Fitia — Diet & Nutrition Helper | Independent Developer, Android 2024

- Native Android app (Java, XML) providing daily nutrition advice, calorie tracking, meal planning, and macronutrient breakdown.

Additional ML Projects | Independent 2025

- Diabetes Predictor AI, Feedback Sentiment Classifier (TF-IDF + Logistic Regression), and Performance Predictor ($R^2 \approx 0.94$) — all deployed via Streamlit.

RESEARCH

- "Blockchain as a Tool for Information Security" — IEEE-formatted paper, University of Central Punjab.
- "Blockchain-Based Secure Authentication for IoT Networks: A Comprehensive Decentralized Framework" — IEEE-formatted paper, University of Central Punjab.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | University of Central Punjab Nov 2022 – Jul 2026
Major in Artificial Intelligence and Machine Learning.

CERTIFICATIONS

- Data Visualization Associate — Remote Internship, Excelerate
- AWS Academy Cloud Foundations — AWS Academy
- AI for Everyone — DeepLearning.AI, Coursera
- Prompt Engineering for Developers — DeepLearning.AI
